

## Special Patterns (Vic) Pty Ltd

POSITION: Engineering CAD/CAM Operator (Trainee)

POSITION DESCRIPTION:

- The CAD/CAM Operator (Trainee) is responsible for using CAD software to produce work to customer requirements as guided by the directors. The CAD operator shall ensure that a safe working environment is provided and raise any issues of concern relating to this area.

---

RESPONSIBILITIES:

- Create cutter paths from CAD data
- Create detailed drawings from CAD data
- Filing of completed jobs
- Assist with projects as requested
- To complete jobs in accordance with check sheets
- Report any discrepancies in data to CAD Co-ordinator
- Modify data as directed
- Keep a record of hours worked on each job
- Other duties as directed

Special Patterns are looking for an CAD Operator (Trainee). They will work with patternmakers, CAD and CNC operators in the production of jobs. On the job training is provided.

We require an enthusiastic and positive person to create drawings and tool paths for CNC machines on high end CAD/CAM software. The applicant should have competent computer skills and experience or exposure to engineering software is helpful. Experience with Unigraphics NX and/or CATIA V5 will be highly regarded, although knowledge of any CAD/CAM package would be an advantage.

The work we do is varied with most jobs being one off's. We do work for a very wide variety of industries.

We require a person who is willing to learn our way of doing jobs and to compliment our skills with their own. You need to be a team player with a strong work ethic. Through training and learning you will be able to further your skills, competencies, qualifications and position.

Special Patterns is a company moving forward.

Are you the one to move forward with us?

Do not call or send any resumes at this time as they will not be accepted.
